PACKING AND LOADING

MARKETS

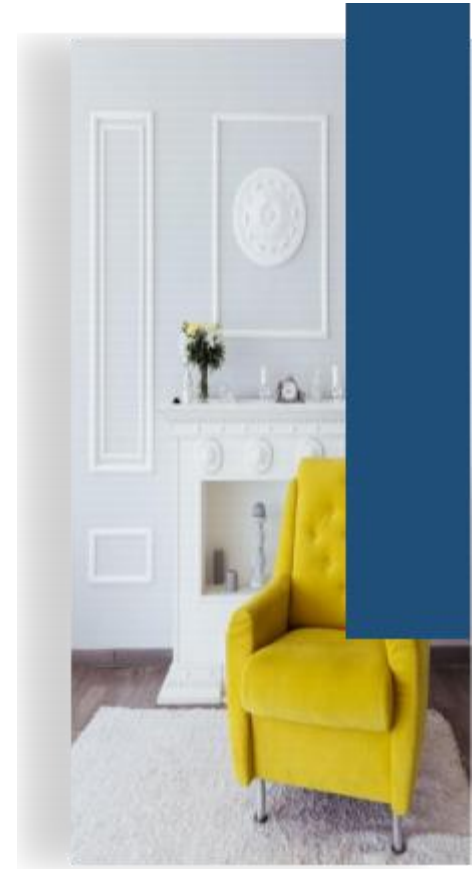

We have established long-term business cooperation with our global clients over the past decade of years' development. JD DECO PVC films have been sold to more than 30 countries and regions around the world, including Southeast Asia, the Middle East, South America, and Europe.

QUALITY CONTROL

well selected raw material

Raw material decide the overall quality of finished product pvc decorative film ,base color film,rigid film,soft film,protective film etc.

Quality control from beginning to end,we care what you care about.

QUALITY CONTROL

Inspection & checking pvc film in details before loading

- ①check the samples from clients make sure customized well,
- ②checking pvc film color,width,thickness,pattern to match with customer' s sample during production.
- ③checking pvc rolling width or customized width
- ④cut same size of pvc film (1m² film from all items with same thickness) to check it's weight , to inspect net weight and gross weight
- ⑤wrap pvc film in rolling tightly and smoothly,also with longer paper tube to protect pvc film

Quality control from beginning to end,we care what you care about.
